

Aroma Therapist, Tanja Bochnig

Tanja's expertise is creating exclusive, all-natural scents and customized intuitive perfumes. She is also a professional model and certified yoga instructor.

Tanja's interest herein is to create magical scents that go beyond what the mind knows and thinks it needs. She intuitively connects with each person after a brief phone consultation to create a soul, one-of-a-kind scent. She blends together only the finest and purest extracts and absolutes from the world over, to help each person to connect deeply into what their spirit desires. Her services for customized scents are also available for homes, offices or for private label retail signature collections.

Tanja is a native from Germany. Her ongoing modeling career began at a young age and she eventually moved to New York where she traveled from and resided for years. Tanja continues to travel frequently between Europe and the United States. She is available for workshops and retreats most anywhere.

Tanja holds 15 years of experiences as a student of natural perfumery, botany, homeopathy, herbs, nutrition, reiki, reflexology, yoga and meditation. Subsequently she witnessed harvesting and distillation that helped her determine essential oil suppliers.

Instructive workshops while exploring the plant and essential oil world led her to develop her own *AromaYoga* classes, where yoga is integrated with her uniquely blended chakra oils and mists. Hence Tanja's *AromaYoga* has been featured in several yoga publications and she is currently working on her first book. Chic Eco is proud to share her article, [Heaven Scent](#), in the 2008 April issue of *Yoga Fit*. Her aroma collection catalog is available to registered buyers on the [Chic Eco](#) wholesale site.

Tanja's mission is to create magical scents that help people connect to their harmonic inner core.
