2010 December Hemp Tops

Dear Eco Buyer,

Welcome to *Hemp Comforts*. These practical items are from a manufacturer that has been in the hemp business since 1993.

Prepared for dye (PFD) queries are welcome. Note that PFD garments are in their natural color, are pre-washed and shrunk. They may be dyed or printed to any color you choose.

Custom colors are possible with fabric and production orders. Please inquire with considerations more than 200 yards. Allow up to eight weeks for completion, pending on order. Quantity discount terms apply.

Know that hemp fiber is one of the strongest and most durable of all natural textile fibers. The more hemp is used, the softer it gets. Hemp doesn't wear out. It wears in. Hemp is also naturally resistant to mold and ultraviolet light. That spells perfect ocean resort wear. Hemp blended with other fibers easily incorporates the desirable qualities of both textiles.

Due to the porous nature of the fiber, hemp is more water absorbent, and will dye and retain its color better than any fabric, including cotton. This porous nature allows hemp to breathe so that it is cool in warm weather. Furthermore, air which is trapped in the fibers is warmed by the body, making hemp garments naturally warm in cooler weather.

Get hip and buy hemp!

TERMS

- ◆ No minimum requirement; quantity discounting.
- ◆ Garments usually stocked. Completion dates determined upon each order.
