2008 Organic Cotton Garment & Merchandise Labels

Dear Eco Buyer,

Due to a popular and crying demand, I am pleased to offer garment labels made from *certified* organic cotton in South Asia. They are designed especially for the green fashion trade.

Beware of suppliers that do not verify material purity with certificates! No green-washing here, as *Tanveer's Labels* are authentic. Simply request organic certificate copies with your purchase order.

The order form prices are estimated guidelines and require artwork for a precise quote. Typically, only pennies are added to each unit price for artwork. For print only without artwork, a font selection will be offered from your input.

For an exact color matching request, Pantone numbering is required. However, the Pantone color system is optional and not necessary to place an order with acceptance of a potential hue difference.

If you are not familiar with the Pantone color system, ArtGrafix is a recommended guide supply company in Connecticut, USA. See www.artgrafix.com for Pantone Textiles or phone 203-729-2846.

Please feel free to ask about a label design not offered in this catalog. Examples are hemp or recycled materials. Hang-tags and heat transfers are also available. Tanveer is a master sourcing agent for your labeling needs!

Walk the talk with clean, certified organic cotton garment labels and portray a sincere environmental message on all your creations.

Environmentally yours,

Delia

Garment Label Production Guide

Labels can be produced as individual pieces or on a continuous roll. There are 5 style options described as follows:

- 1) Center Fold, also known as a loop label. Typically has logo or artwork on the front part with materials and care instructions on the back.
- 2) End Fold, has left/right end sides of the label tucked behind and stitched onto the garment.
- 3) Fuse Fold, also known as no-fold, hot, or straight cut, where there are no folds and all the ends are sewn onto the garment.
- 4) Mitre Fold, without any folds, which is cut off at a 45-degree angle at both ends and attached at the top.
- 5) Roll, which is cut as needed and attached to each garment.
